# Software Updates

## Cypress 7.4.2

---

- **Cypress 7.4.2 patch was released on December 4, 2025**
- **Cypress Features**
  - Validation warnings when QRDA I files are missing the provider's Tax Identification Number (TIN) ([CYPRESS-2795](#))
  - Improved Product page load times
- **Cypress Bug Fixes**
  - NUMEX values were not being displayed in Patient View ([CYPRESS-2792](#))
  - Unable to edit a Checklist Test after uploading a passing QRDA file ([CYPRESS-2802](#))

## Software Updates

# TIN Validation Warnings (1 of 2)

---

- **Cypress will return warnings when QRDA I files are missing a provider's Tax Identification Number**
  - Rationale: Having the TIN recorded in QRDA I files can assist with provider attribution when aggregating patient data from multiple sources within an ACO.
  - Warnings will be returned for tests related to the 3 ACO eCQMs
    - CMS2 - Preventive Care and Screening: Screening for Depression and Follow-Up Plan
    - CMS122 - Diabetes: Glycemic Status Assessment Greater Than 9%
    - CMS165 - Controlling High Blood Pressure
  - Warnings in Cypress are treated as informational, and will not result in a test failing

# Software Updates

## TIN Validation Warnings (2 of 2)

- TIN validation warnings will be provided when
  - The TIN is missing

The screenshot shows a 'Results' page for a test run. At the top right, it says 'Most Recent - Upload 4 of 4 (in progress)' and 'Refresh View'. The main status is 'Passed'. Below this, there are links: 'Try the associated QRDA Category III Measure Test' and 'Try a different Measure Test', and 'Try a Record Sample'. A summary box on the right shows 'Test Date: November 18, 2025 4:49pm', 'Files Uploaded: Archive.zip', and 'Total Test Executions: 4'. Under the 'Warnings' section, two files are listed: '0\_Anita\_Mcguire.xml' and '15\_Kimberly\_Singleton.xml', both with a warning icon and a count of 1. A button 'View Uploaded XML with Errors' is present. Below the warnings, there are tabs for 'Errors (0)' and 'Warnings (1)'. The 'Warning message' section shows: 'The Provider's TIN should be reported for this measure to support ACO reporting.' and a 'Go To in XML' link.

- The TIN does not match the expected value

The screenshot shows a 'Results' page for a test run. At the top right, it says 'Most Recent - Upload 5 of 5 (in progress)' and 'Refresh View'. The main status is 'Passed'. Below this, there are links: 'Try the associated QRDA Category III Measure Test' and 'Try a different Measure Test', and 'Try a Record Sample'. A summary box on the right shows 'Test Date: November 18, 2025 4:51pm', 'Files Uploaded: Archive.zip', and 'Total Test Executions: 5'. Under the 'Warnings' section, two files are listed: '0\_Anita\_Mcguire.xml' and '15\_Kimberly\_Singleton.xml', both with a warning icon and a count of 1. A button 'View Uploaded XML with Errors' is present. Below the warnings, there are tabs for 'Errors (0)' and 'Warnings (1)'. The 'Warning message' section shows: 'Reported TIN 237413058 does not match Expected TIN 237413057. You can configure expected TIN using Vendor Preferences.' and a 'Go To in XML' link.

# Software Updates

## Configuring expected TIN

- By default, Cypress assigns a random TIN for each measure test

◀ Previous Test: CMS165v14
Next Test: CMS165v14 ▶

### CMS165v14 Measure Test

Measure: Controlling High Blood Pressure  
 Measurement Period: 01/01/2026 - 12/31/2026  
 HQMF ID: CD9A5C8E-AC16-4E10-A1F4-4DFE48E02CAB  
 CMS ID: CMS165v14 ([eCQM Specification](#))

Provider Name: Ashley Moore  
 Provider NPI: 1329690444  
 Provider TIN: 237413057  
 Provider CCN: 310137

# Software Updates

## Bundle Updates

---

- **Three recent Jira comments have pointed out test patients with edge cases that could cause confusion**
  - Medication Orders where the author datetime occurs at the end of the relevant period (CYPRESS-2819)
  - Duration calculations that could change when shifting into local time zones at the boundaries of Daylight-saving time. (CYPRESS-2818, CYPRESS-2823)
  
- **2024.0.1 and 2025.0.1 bundles will be made available addressing these scenarios**

# Medication Order

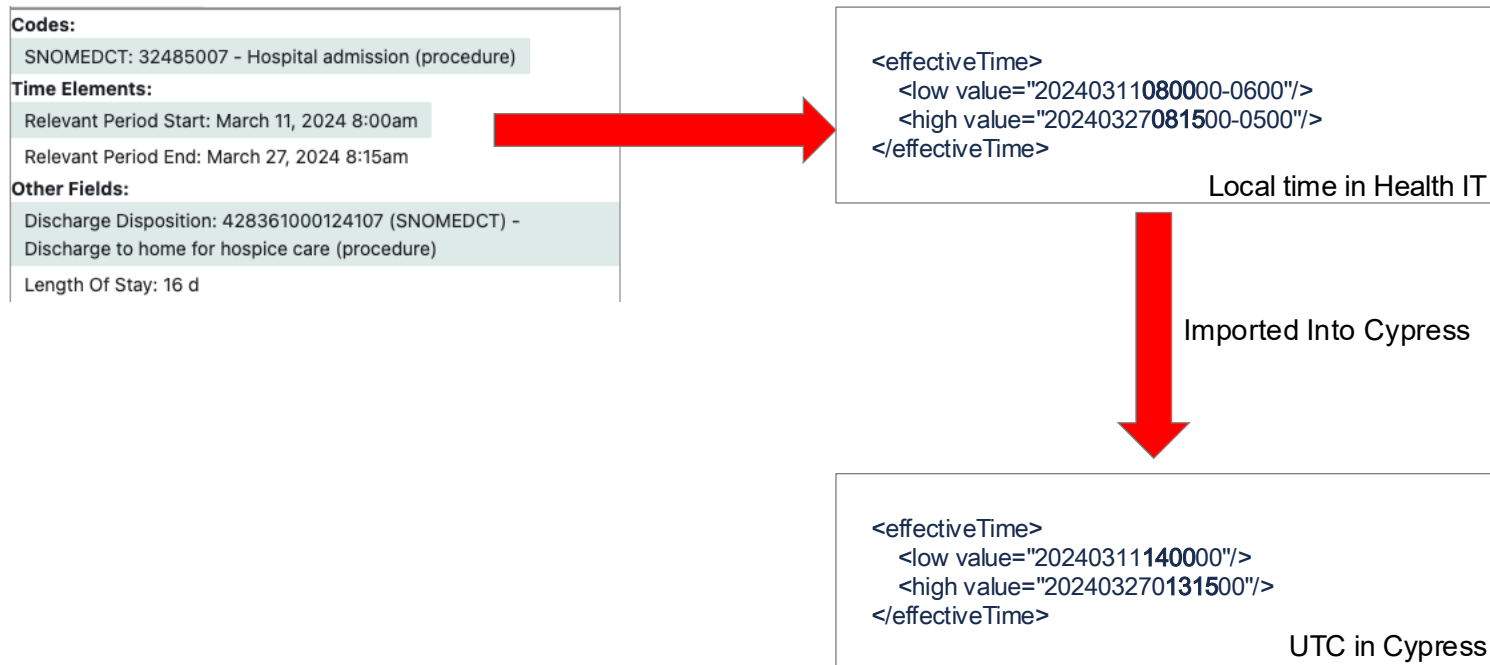

- **Medication Orders where the author datetime occurs at the end of the relevant period (CYPRESS-2819)**
  - Medication Orders have been updated by removing unnecessary relevant periods **OR** have been updated to have the author datetime the prior to or at the same time the relevant period begins

QDM::MedicationOrder
Substance Use Disorder Short Acting Medication
<b>Codes:</b>
RXNORM: 351265 - buprenorphine 8 MG Sublingual Tablet
<b>Time Elements:</b>
Relevant Period Start: August 3, 2024 8:00am
Relevant Period End: October 4, 2024 8:00am
Author Date/Time: October 4, 2024 8:00am

QDM::MedicationOrder
Substance Use Disorder Short Acting Medication
<b>Codes:</b>
RXNORM: 351265 - buprenorphine 8 MG Sublingual Tablet
<b>Time Elements:</b>
Author Date/Time: October 4, 2024 8:00am
<b>Other Fields:</b>

# Encounter Lengths

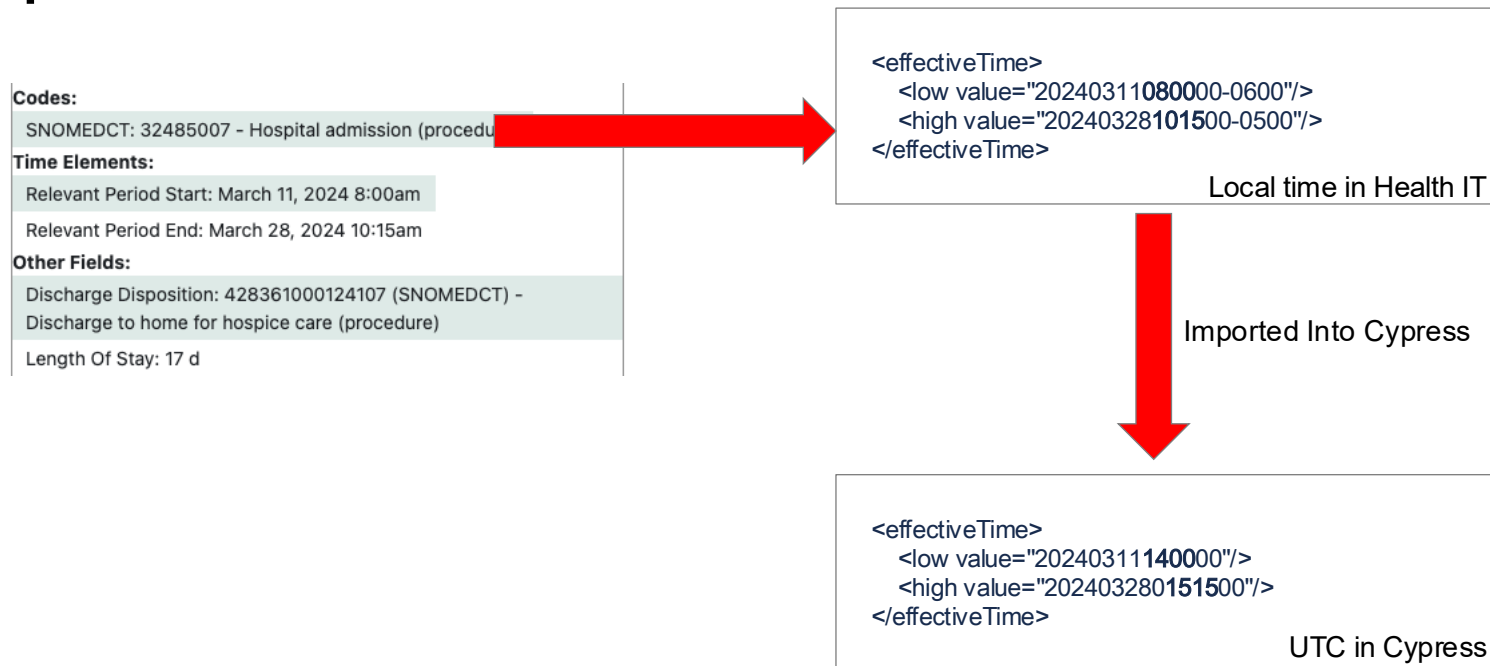

- Durations can change when shifting into local time zones at the boundaries of Daylight-saving time. (CYPRESS-2818)**

Length of Stay: 15 Days

# Encounter Lengths (cont'd)

- Encounter end times around the Daylight-Saving boundary have been shifted to make sure calculation remains consistent when the patient is evaluated in the original UTC time zone, or if the patient is shifted into a local time zone

Length of Stay: 17 Days

# Loading an updated Bundle

- **Deprecate existing bundle**
  - All previously created tests with that bundle will remain active (i.e., previously created tests do not need to be redone)
  
- **Install Updated Bundle**
  - All new tests will use the updated test patients

The screenshot shows the 'Admin' interface with a navigation bar containing 'Application Settings', 'User Management', 'Bundles', and 'Application Status'. Below the navigation bar, the 'Installed Bundles' section is visible. A table lists the installed bundles with columns for 'Title' and 'Version'. The table contains one entry: 'Cypress bundle for the 2026 Reporting/Performance period (eCQM value sets as of May 8, 2025)' with version '2025.0.0'. To the right of the table is a '+ Import Bundle' button. Below the table entry are three buttons: 'Set Default', 'Deprecate', and 'Remove'.

Title	Version
Cypress bundle for the 2026 Reporting/Performance period (eCQM value sets as of May 8, 2025)	2025.0.0

The screenshot shows the 'Admin > Add Bundle' page with the 'Import Bundle' dialog box open. The dialog has a title bar 'Import Bundle' and a section labeled 'Bundle'. Below this section is a 'Choose File' button followed by a text input field containing 'bundle-2025.0.1.zip'. At the bottom of the dialog are two buttons: 'Import Bundle' and 'Cancel'.
